

SERVICES

Infrastructure Transportation

- At SIAL, we provide comprehensive services throughout the commodity value chain from sourcing to logistics solutions and marketing to storage solutions.
- We have deployed over 100 trucks in Odisha, helping clients avoid the troubles of owning trucks and managing manpower, theft, and accidents.
- We're leading the transition to electric vehicles, slashing carbon emissions and operating costs.
- We provide affordable and green logistic solutions that contribute to the preservation of the environment.

Civil and EPC Works

- SIAL specializes:
 - Excavation services
 - Earthmoving services
 - Repair and demolition services
 - Paving and grading
 - Water sewer and drainage replacement
 - Debris removal
 - Road construction management services
- We engage in hard rock excavation, blasting, and soil removal, completing numerous projects in extreme conditions.
- We leverage advanced machinery like rock breakers, heavy excavators, and blasting technology machines, ensuring safe and efficient operations.

Supply Chain Management

- SIAL provides integrated supply chain management services, which include transport, distribution, warehousing, and inventory management.
- We even offer fulfillment services for seamless and optimized supply-chain processes.
- A promise of client satisfaction with reliable and efficient services powered by the latest technologies meeting standard industry requirements.
- We open doors to our strategic alliances with major companies in transportation and distribution, warehousing, fulfillment services, inventory management, and many value-added services.
- We're results-oriented with a proven track record of completing projects on time and within budget.

Manpower Management

- SIAL offers skilled and unskilled manpower for all types of projects to provide efficient and effective workforce solutions.
- We ensure compliance and safety with supervision for on-site quality and compliance management.
- Drive hassle-free operations and take advantage of a reliable workforce focused on delivering your project requirements.

Mining Sector Services

- SIAL provides complete execution management for important clients for efficient and reliable operations.
- We focus on offering specialized services to clients in mining sectors by outsourcing transportation and manpower to clients, who then manage the execution entirely.
- Our most illustrious clients, such as Vedanta and Jindal, testify to SIAL's capability and credibility.

Advanced Machinery and Technology

- Our clients can rely on us to use the latest machinery and AI-powered technologies to optimize operations.
- SIAL invests in technological innovations to enhance efficiency, safety, and project outcomes.
- Our past projects illustrate the use of advanced excavation machinery and automated systems, reflecting the innovative culture that SIAL embodies.

Customized Solutions

- All our services offer space for tailor-made solutions based on the different needs of each client, offering flexibility and personalization.
- Customized projects, show SIAL's ability to accommodate any unique requirement.
- The client-centered approach ensures satisfaction and secures long-term partnerships.

Strategic Sourcing

- The asset-light model reduces capital expenditure while maintaining high service quality.
- Strategic sourcing enhances scalability and efficiency, leveraging expertise in various jurisdictions.
- Benefits include cost reduction and access to specialized skills, ensuring successful project execution.
